

5 Packing Information

5-1 Standard Packing Specifications

1) Etched and Formed Foil

Items	Formed Foil / Etched Foil		
Size of Roll	Small Size Roll	Medium Size Roll	Large Size Roll
Container Type	Carton		
Foil Winding Width	① $500 \pm \begin{smallmatrix} 5 \\ 0 \end{smallmatrix}$ mm : all foils except for those specified below		
	② $485 \pm \begin{smallmatrix} 5 \\ 0 \end{smallmatrix}$ mm : U147・U140 ; Formed foil for anode, low voltage		
Core Size	Length: 600 ± 1 mm I.D. : $75 \pm \begin{smallmatrix} 2 \\ 1 \end{smallmatrix}$ mm		
Core Materials	Aluminum Powder Coated Steel		
Dimensions of Container	$400D \times 630W \times 460H$ (mm)		$470D \times 610W \times 540H$ (mm)
Weight of One Roll (Without Container)	Approx. 25kg	Approx. 50 kg	Approx. 100 kg

I.D. = Inside Diameter

In case of Small Size Roll, I.D.40mm* core packing is available, if requested.

{* I.D.:40mm(+1,-0), Length :505mm(±2), Core Material: PVC(Poly-Vinyl-Chloride) }

This φ 40mm core packing is special packing specification.
